DISCLAIMER:

Please let your Therapist know before the start of your treatment,
of any allergies or medication that you may be taking which could effect your skin

Also about any recent injuries in the area of the body that your Therapist is working on
Shellac, Gel Polish & Nail System Applications: **Your nails are jewels, NOT tools!**

AVOID USING:

Sun tan oils or insect repellent on your nails, as many contain solvent oils which will cause damage to polish .

Some of the more delicate gel colors can fade in chlorinated water and excessive sun.

Chlorine is a bleach and sun intensifies the bleaching action.

Dry your hands and nails after swimming and before sunbathing to minimize any color fading, but you could have some fading.

Use cuticle oil and moisturise daily to replace lost moisture to your skin and nails to maintain healthy & undamaged nails.
